Learning outcomes, including any relevant competencies listed in the Minnesota Transfer Curriculum:

The student will:

- Define business in the United States and describe its characteristics, and discuss how an idea can be turned into a product or service in the marketplace
- Explain the purpose and functions of management and the internal organizational structure of business
- Explain the importance of marketing to business and the marketing mix (four P's: product, place, promotion, price)
- Discuss the essentials of production and operations management, computer systems, accounting for financial control, and business forecasts and budgets
- Identify the factors used in obtaining maximum productivity from human resources
- Analyze the financial needs of business, describe where and how funds are obtained, and explain the money and banking systems in the United States
- Discuss the growth of American business (especially corporations and American companies in international trade) and examine the laws and regulations and ethical standards of business

Student assessment methods:

- A minimum of four examinations
- Miscellaneous quizzes and five-minute writes

Use of instructional technology (includes software, interactive video and other instructional technologies):

Overhead
