

MESABI RANGE COMMUNITY & TECHNICAL COLLEGE

Course Outline

Course Title: Power Transmission I
Semester Course Prefix and Number: MEST 2270
Old Quarter Course Prefix and Number:

Submitted By: Andy White
Approval Date: April 2009
Revision Date: March 31, 2009

Number of Credits: 3
Semester(s) Offered: Fall
Class Size: 24

Number of Lecture Credits: 1
Number of Lab Credits: 2 Number of Lab Hours: 4
Number of Studio/Demonstration/Internship Credits: 0

Negotiated by AASC on:
(date) November 2008

Course Purpose Code:

- 0 – Developmental Courses
- 1 – Non-transferable, General Education
- 2 – Technical course related to career programs
- 3 – College course which has the primary goal of applying certain concepts (e.g. vocal ensemble)
- 4 – Other college course not considered a part of general education (MNTC) (e.g. computer science, health, physical education)
- 5 – Course which is intended to fulfill the Minnesota Transfer Curriculum (MNTC) requirements or intended for transfer.
- 9 – Continuing Education/Customized Training specialized credit course (not occurring in 0-5)

Catalog Description:

The purpose of this course is to introduce the student to the study of mechanical power transmission. Areas of study will include gear types and their relation to torque, drive axles, final drives, manual clutches, manual transmissions (gear boxes), and drive lines. The student will learn to service and repair these systems safely and properly.

Prerequisites and/or recommended entry skills/knowledge:

Course Prerequisite(s): MEST 1245 Mobile Equipment Fundamentals
Reading Prerequisite:
Composition Prerequisite:
Mathematics Prerequisite:

Career Programs and Transfer Majors Accessing this Course:

Mobile Equipment Service Technician

Minnesota Transfer Curriculum Goal(s) partially met by this course if applicable:

(Notes: No more than two goals may be met by any one course. Curriculum Committee review and the Chief Academic Officer's approval are required.)

Learning Outcomes: (including any relevant competencies listed in the Minnesota Transfer Curriculum)

Upon completion of this course, the student will be able to:

- 1.) Follow proper safety procedures.
- 2.) Identify the various types of gears used in mobile equipment applications.
- 3.) Perform related math calculations. (gear ratios, gear speed, gear pitch, and torque multiplication)
- 4.) Explain the relationship between torque and speed through various gear combinations.
- 5.) Identify the various types of clutches and flywheels used in mobile equipment.
- 6.) Identify various mechanical clutch components.
- 7.) Identify the major components in a typical mechanical transmission.
- 8.) Trace power flows through mechanical transmissions.
- 9.) Explain the importance of lubricant selection for mechanical drive components.
- 10.) Explain the importance of preventive maintenance inspections for mechanical drive components.
- 11.) Explain the fundamentals of drivelines.
- 12.) Demonstrate the proper maintenance procedures for drivelines.
- 13.) Identify the components of the differentials used in mobile equipment.
- 14.) Explain the operation of the differentials used in mobile equipment.
- 15.) Explain the maintenance and adjustment procedures for differentials used in mobile equipment.
- 16.) Explain the purpose of final drives used in off road mobile equipment.
- 17.) Identify the construction features of final drives.
- 18.) Perform routine diagnostics for mechanical drive components.
- 19.) Demonstrate proper use of hand tools, power tools, and other related specialty tools.
- 20.) Perform tasks cooperatively

Student Assessment Methods:

Homework, Lab Assignments, Hands-on Tests, Written Tests

Use of Instructional Technology: (includes software, interactive video and other instructional technologies):

PowerPoint Presentations, Video Presentations, Equipment Specific Diagnostic Software, Digital Multi-Meters, Personal Computers, Internet.

Outline or Statement of Major Course Content:

See Course Description above

Additional Special Information: (special fees, directives on hazardous materials, etc.)

None

Transfer Information: (Please list colleges/majors that accept this course in transfer.)

Approvals:

Body	Representative Signatures	Date
Curriculum Committee		
Faculty Association		
Academic Affairs Standards Committee		
Chief Academic Officer		

Distribution: Original – Administrative Office

Copies: Curriculum Committee Chair, AASC Chair, Transfer Specialist, Originating Faculty Member, Scheduler, Records, Student Services, Learning Center, Library

Revised: October 2006
