

MESABI RANGE COMMUNITY & TECHNICAL COLLEGE

Course Outline

Course Title: Electrical Control of Machines
Semester Course Prefix and Number: PAS 2265
Old Quarter Course Prefix and Number:

Submitted By: Scott Norcia
Approval Date:
Revision Date: 11/23/11

Number of Credits: 2
Semester(s) Offered: Fall
Class Size: 24
Negotiated by AASC on: (date)

Number of Lecture Credits: 1
Number of Lab Credits: 1 Number of Lab Hours: 2
Number of Studio/Demonstration/Internship Credits:

Course Purpose Code:

- 0 – Developmental Courses
 1 – Non-transferable, General Education
 2 – Technical course related to career programs
 3 – College course which has the primary goal of applying certain concepts (e.g. vocal ensemble)
 4 – Other college course not considered a part of general education (MNTEC) (e.g. computer science, health, physical education)
 5 – Course which is intended to fulfill the Minnesota Transfer Curriculum (MNTEC) requirements or intended for transfer.
 9 – Continuing Education/Customized Training specialized credit course (not occurring in 0-5)

Catalog Description:

This course covers the discrete and integrated circuit elements used in modern control systems. The course includes the expanding use of solid-state and microprocessor control of systems, and the use of fluid and electrical-mechanical power. Topic covered will include machine control power courses, control system and machine environments, motion control of machines, and complex control situations.

Prerequisites and/or recommended entry skills/knowledge:

Course Prerequisite(s): EIAT/PAS 1253, EIAT/PAS 1233, EIAT/PAS 1243, EIAT/PAS 1295, & EIAT/PAS 1244
Reading Prerequisite: None
Composition Prerequisite: None
Mathematics Prerequisite: None

Career Programs and Transfer Majors Accessing this Course:

Process Automation Systems Diploma
Process Automation Systems AAS

Minnesota Transfer Curriculum Goal(s) partially met by this course if applicable:

(Notes: No more than two goals may be met by any one course. Curriculum Committee review and the Chief Academic Officer's approval are required.)

| 5. <input type="checkbox"/> History and the Social and Behavioral Sciences | |

Learning Outcomes: (including any relevant competencies listed in the Minnesota Transfer Curriculum)

Following the completion of this course the student will be able to demonstrate the ability to:

1. compare hazardous areas
2. identify main sources of power and control
3. interpret Motor Control Center schedules
4. identify the lay-out of MCCs
5. identify the components of MCCs
6. perform maintenance on MCCs
7. wire and control machines from MCCs
8. define power factor
9. identify power factor correction
10. design complex control circuits
11. troubleshoot complex control circuits
12. develop documentation of control circuits
13. read flow charts
14. read timing or bar charts
15. identify machine environments
16. analyze complex control circuits
17. identify types of non-intrusive sensors used in the detection of machine position and the location of target objects.
18. properly wire, adjust/calibrate and interface sensors to control circuits

Student Assessment Methods:

Lab assignments, worksheets, papers, and tests.

Use of Instructional Technology: (includes software, interactive video and other instructional technologies):

Power Point Software, videos, motor and machine control lab facilities and equipment

Outline or Statement of Major Course Content:

This course will provide typical machine control system explanations, illustrations, and application that typical of those found in industry. The lab application will be performed with actual industrial grade control systems. The focus will be on the design, wiring, and troubleshooting of systems.

Additional Special Information: (special fees, directives on hazardous materials, etc.)

Laptop Computer Lease

Transfer Information: (Please list colleges/majors that accept this course in transfer.)

None

Approvals:

Body	Representative Signatures	Date
Curriculum Committee		11-29-11
Faculty Association		12-5-11
Academic Affairs Standards Committee		11-29-11
Chief Academic Officer		

Distribution: Original – Administrative Office

Copies: Curriculum Committee Chair, AASC Chair, Transfer Specialist, Originating Faculty Member, Scheduler, Records,
Student Services, Learning Center, Library
Revised: October 2006
