

MESABI RANGE COMMUNITY & TECHNICAL COLLEGE

Course Outline

Course Title: Power Generation and Distribution
Semester Course Prefix and Number: WET 2255
Old Quarter Course Prefix and Number:

Submitted By: Dan Janisch
Approval Date:
Revision Date:

Number of Credits: 2
Semester(s) Offered: Fall
Second Year
Class Size: 25
Negotiated by AASC on:
(date)

Number of Lecture Credits: 2
Number of Lab Credits:0
Number of Lab Hours:0
Number of Studio/Demonstration/Internship Credits:

Course Purpose Code:

- 0 - Developmental Courses
1 - Non-transferable
X 2 - Technical course related to career programs
3 - College course which has the primary goal of applying certain concepts (e.g. vocal ensemble)
4 - Other college course not considered a part of MNTC (e.g. computer science, health, physical education)
5 - Course which is intended to fulfill the Minnesota Transfer Curriculum (MNTC) requirements or intended for transfer.
9 - Continuing Education/Customized Training specialized credit course (not occurring in 0-5)

Catalog Description:

The course is designed to provide students with the opportunity to gain experience with tasks related to power generation and distribution including utility operations, transmission and distribution level systems, and integration of wind power into the grid.

Prerequisites and/or recommended entry skills/knowledge:

Course Prerequisite(s): First Year of Wind Program
Reading Prerequisite: College Level Reading
Composition Prerequisite: College Level Writing
Mathematics Prerequisite: First Year of Wind Program

Career Programs and Transfer Majors Accessing this Course:

Wind Energy Technology, EIAT and IT students with instructor approval.

Minnesota Transfer Curriculum Goal(s) partially met by this course if applicable:

(Notes: No more than two goals may be met by any one course. Curriculum Committee review and the Chief Academic Officer's approval are required.)

- 0. None
1. Communications
2. Critical Thinking
3. Natural Sciences
4. Mathematical/Logical Reasoning
5. History and the Social and Behavioral Sciences
6. The Humanities and Fine Arts
7. Human Diversity
8. Global Perspectives
9. Ethical and Civic Responsibility
10. People and the Environment

Learning Outcomes: (including any relevant competencies listed in the Minnesota Transfer Curriculum)

Upon completion of this course, the student will be able to:

- 1.) Identify the difference between transmission and distribution systems.
- 2.) Relate the wind turbine power generation to the utility grid.
- 3.) Identify parts of the electrical generation system and troubleshoot them.
- 4.) Demonstrate the understanding of power generation concepts.

Student Assessment Methods:

Written tests and quizzes. Demonstration of mechanical abilities. Report writing.

Use of Instructional Technology: (includes software, interactive video and other instructional technologies):

Email, Moodle, diagnostic devices and tools. Guest speakers as applicable.

Outline or Statement of Major Course Content:

Power generation systems as they relate to wind turbines.

Additional Special Information: (special fees, directives on hazardous materials, etc.)

Student will be expected to work with tools and high voltage equipment in order to maintain a passing grade in this class.

Transfer Information: (Please list colleges/majors that accept this course in transfer.)

Approvals:

Body	Representative Signatures	Date
Curriculum Committee		
Faculty Association		
Academic Affairs Standards Committee		
Chief Academic Officer		

Distribution: Original – Administrative Office

Copies: Curriculum Committee Chair, AASC Chair, Transfer Specialist, Originating Faculty Member, Scheduler, Records

Revised: May 2009
