

Important! Your Office 365 **user name** will change on **Tuesday, March 21, 2017, at 6:00 p.m.**

To align with the new Minnesota State brand, your login credentials for Office 365 applications will change on to the following:

* Employees (Faculty, Staff, and Guests): user name will change to StarID@minnstate.edu

* Students: user name will change to StarID@go.minnstate.edu

The change will impact some Microsoft desktop applications (Outlook, Skype for Business, OneDrive), web-based applications (OWA, SharePoint), and mobile devices.

NOTE! This change will not impact your email address OR how you log into your campus computer!

WHAT DO I NEED TO DO?

Continue to use your current user name until the application prompts you for new credentials – some desktop applications can take up to 24 hours to prompt.

Once prompted, enter your new user name with your StarID password.
