### Course Outline

**Course Title:** Pressure, Flow, and Level Instruments  
**Submitted By:** Robert Stevens  
**Semester Course Prefix and Number:** ECM 2267  
**Old Quarter Course Prefix and Number:**  
**Number of Credits:** 3  
**Number of Lecture Credits:** 1  
**Number of Lab Credits:** 2  
**Number of Studio/Demonstration/Internship Credits:**  
**Number of Lecture Hours:**  
**Number of Lab Hours:** 4  
**Approval Date:**  
**Revision Date:** 9/6/16  
**Semester(s) Offered:** Fall  
**Class Size:** 24  

#### Course Purpose Code:

- 0 – Developmental Courses  
- 1 – Non-transferable  
- x 2 – Technical course related to career programs  
- 3 – College course which has the primary goal of applying certain concepts (e.g. vocal ensemble)  
- 4 – Other college course not considered a part of MNTC (e.g. computer science, health, physical education)  
- 5 – Course which is intended to fulfill the Minnesota Transfer Curriculum (MNTC) requirements or intended for transfer.  
- 9 – Continuing Education/Customized Training specialized credit course (not occurring in 0-5)

#### Catalog Description:

The course is a "Hybrid" or "Blended" course with the majority of the learning environment traditional in-class lectures and hands-on lab work which also includes Web-based learning activities to complement face-to-face work. This course is designed to encompass three related areas of industrial instrumentation measurement. The course covers the terminology, mathematical relationships, and physical properties involved with the measurement of pressure, level, and flow. The course provides the knowledge and skills required for operational understanding, proper installation, and accurate calibration of the primary elements and transducers used in these measurement areas.

#### Prerequisites and/or recommended entry skills/knowledge:

- **Course Prerequisite(s):** ECM 1253, ECM 1233, ECM 1243, ECM 1295, ECM 1244  
- **Reading Prerequisite:** None  
- **Composition Prerequisite:** None  
- **Mathematics Prerequisite:** None

#### Career Programs and Transfer Majors Accessing this Course:

- Electrical Controls and Maintenance Diploma  
- Electrical Controls and Maintenance AAS

#### Minnesota Transfer Curriculum Goal(s) partially met by this course if applicable:

(Notes: No more than two goals may be met by any one course. AASC review and the Chief Academic Officer's approval are required.)

**Learning Outcomes:** (including any relevant competencies listed in the Minnesota Transfer Curriculum)

Upon completion of this course, the student will be able to:

- Interpret the physical properties associated with pressure, flow and level measurement
- Describe the types of sensors used to measure pressure flow and level
- Describe the function, setup, and parameters necessary to program transmitters for pressure, flow and level systems
- Properly wire, adjust/calibrate, and troubleshoot pressure, flow and level systems.

**Student Assessment Methods:**
Assessment made of lab assignments, worksheets, and papers using rubrics and check lists. Tests and quizzes of technical knowledge to be given at regular intervals during semester.

**Use of Instructional Technology:** (includes software, interactive video and other instructional technologies):

ECM Laptop Computer Lease with Industrial Software

**Additional Special Information:** (special fees, directives on hazardous materials, etc.)

Laptop Computer Lease and Required Tool List

**Transfer Information:** (Please list colleges/majors that accept this course in transfer.)

**Affiliated Mesabi Range College Courses and Programs:**

**Approvals:**
