Course Title: OSHA 10 and Wind Turbine Safety
Submitted By: Dan Janisch
Approval Date: Nov 2009

Number of Credits: 1

Semester(s) Offered: Spring
Class Size: 24
Negotiated by AASC on: (date)

Course Purpose Code:
0 – Developmental Courses
1 – Non-transferable, General Education
X 2 – Technical course related to career programs
3 – College course which has the primary goal of applying certain concepts (e.g. vocal ensemble)
4 – Other college course not considered a part of general education (MNTC) (e.g. computer science, health, physical education)
5 – Course which is intended to fulfill the Minnesota Transfer Curriculum (MNTC) requirements or intended for transfer.
9 – Continuing Education/Customized Training specialized credit course (not occurring in 0-5)

Catalog Description:
This course will familiarize students with the safety aspects of an active wind energy project. An emphasis will be placed on safe work practices, behaviors and techniques specific to wind turbine construction, maintenance and operation. Topics will include risk management techniques, critical thinking associated with safety planning, creating a site safety plan and the OSHA 10 course.

Prerequisites and/or recommended entry skills/knowledge:
Course Prerequisite(s): None
Reading Prerequisite: 
Composition Prerequisite: 
Mathematics Prerequisite: 

Career Programs and Transfer Majors Accessing this Course:
Wind Energy Technology

Minnesota Transfer Curriculum Goal(s) partially met by this course if applicable:
(Note: No more than two goals may be met by any one course. Curriculum Committee review and the Chief Academic Officer’s approval are required.)
0. X None
1. Communications
2. Critical Thinking
3. Natural Sciences
4. Mathematical/Logical Reasoning
5. History and the Social and Behavioral Sciences
6. The Humanities and Fine Arts
7. Human Diversity
8. Global Perspectives
9. Ethical and Civic Responsibility
10. People and the Environment
**Learning Outcomes:** (including any relevant competencies listed in the Minnesota Transfer Curriculum)

Upon completion of this course, the student will be able to:

- Demonstrate a dedication to the educational process through active participation.
- Explain the basics of OSHA regulations and reporting.
- Be able to create a safety plan and think critically through situations regarding safety.
- Demonstrate knowledge of wind turbine safety gear and hazardous situations.

**Student Assessment Methods:**

Written assignments and tests.

**Use of Instructional Technology:** (includes software, interactive video and other instructional technologies):

PowerPoint, Web based research, Online delivery

**Outline or Statement of Major Course Content:**

- OSHA 10 Course.
- Identify hazards and risks associated with wind turbine work.
  - Create plans to minimize safety hazards and risks.
  - Associate safety gear with situations requiring it.
  - Think critically, i.e. problem solving in complex hazardous situations.
- Explore the requirements teaching others onsite to work safely and minimize risks.

**Additional Special Information:** (special fees, directives on hazardous materials, etc.)

None

**Transfer Information:** (Please list colleges/majors that accept this course in transfer.)

None

**Approvals:**
